## FOTO-KUNST

### PERSON

Born: Duisburg, 06.08.1960  
Residence: Cologne

### DEVELOPMENT

It all started quite innocently, with a Nikon FE2. That was back in 1984. Since then it's become an obsession, an addiction. And I've become a willing addict. My addiction involves searching constantly for unique moments, one-of-a-kind images. Always inspired by street photography and the desire to perhaps – one day – create pictures worthy of comparison with those of Gyula Halász (Brassai).
